

PUBLIC HEALTH FACT SHEET

No. 101.3

FLOODS AND CHILDREN'S TOYS

- Children's toys affected by floodwater should be discarded if they are soft toys or moulded plastic toys with air injection holes.
- Solid toys may be disinfected.
- Outdoor play equipment must be adequately cleaned and disinfected before use.

Children's sandpits should be completely drained and the sand removed if the sandpit was inundated with floodwater. You must assume all floodwaters are contaminated with sewage.
