

# Diabetic Foot Workshop

**TARGET AUDIENCE:** All Health Professionals in the Northern Territory working in the clinical setting.

**AIM:** It is designed to provide participants with the knowledge and practical skills in foot care to provide clinical services and promote client self management.

**CONTENT INCLUDES:**

- Client education to promote observation and daily foot care.
- Early identification and intervention strategies to assist people to identify changes in their feet that require a referral to a podiatrist.
- Incorporating diabetic foot screening & foot care plans into daily work practice
- Provide basic treatments such as toenail cutting and paring calluses in the clinical setting.

This course includes 1 day theory and 1 day practical training presented by a qualified podiatrist. There is no pre work for this course.

**PREREQUISITE:** Nil
